

SIMIC is proud to have been invited to [EDF](#) European Nuclear Supplier's Days which took place last week in Paris with our European allies.

Thanks to [EDF](#), [GIFEN](#) and [BUSINESSFRANCE](#) for this interesting and useful initiative.

With more than 300 representatives, the event brought together industry leaders and experts from 15 #European countries.

A more robust European nuclear supply chain will present numerous benefits for Europe, covering:

- ☒ energy security
- ☒ economic competitiveness
- ☒ environmental benefits
- ☒ safety and non-proliferation;

in fact, the [European Commission](#) has recognized the importance of a European supply chain in the nuclear sector and has adopted a series of measures to support its development.
